Worth Weight In Gold

Abingdon, Va.-Mrs. Jennie Mc-Call, of this place, says, "I had been troubled with female complaints, for over ten years. I could not walk or stand on my feet, and had been almost confined to the house, for a long time. I began to take Cardui, the woman's tonic, and now I can walk anywhere I want to go. Cardui is worth its weight in gold." This is a high estimate on a plain, herb medicine, yet there are thousands of women who would gladly pay this price for a remedy to relieve their suffering. Cardui has helped others. Wny not you? Try it. Your druggist sells it, in \$1 bottles.

NIGHT SIGNALS FOR AIRMEN THE Illuminated Captive Balloons Used in

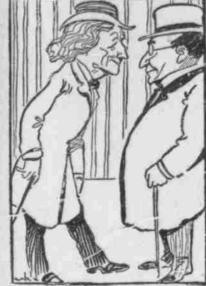

Germany to Gulde Aeronauts

by Night.

The progress of aircraft in Germany is well indicated by the fact that illuminated captive balloons are now being used for the purpose of guiding aeronauts by night. One of these has lately been placed at ters (about eight feet) in diameter, is of a red color and carries an elec- them see the show.

It is visible for a great distance from any other light. In case of fog, when the light could not be EVENING 7 TO 10:26 seen, an electric bell is caused to ring by means of a hygrometer attached. In this way it is possible for a person in charge to ascertain Children - - the height of the fog zone and cause the balloon to ascend into a less moist and clearer atmosphere, when the bell will cease ringing.

marking time."

Of all the gifts that have been bestowed upon mortals it is probable that that of laughter is one of the most precious; and yet we do not know why we laugh, though one know why we laugh, though one clever man recently took it upon himself to tell us the reason. He asserts, for instance, that we laugh "when some one falls down in the street," and argues that we are amused at the unfortunate individ-

al's "mechanical elasticity."

'As a matter of fact civilized persons do not laugh when they witness an accident; rather do they rush forward to see if they can help. We may, if we are fortunate enough to have a some of the child in him. us, laugh to tears when the policeman in a play trips over the clown, because we know it is make-believe; but we are humane enough nowadays not to see anything risible in a fall which may result in a broken leg or a dislocated shoulder.

The causes of laughter are one of the tests of a high civilization.

ORE DEPOSITS DUE TO EROSION.

A new theory covering the formation of deposits of gold supposes that certain regions under similar geological conditions owe their endowment to the greater or less activity of the erosions which have reached the deeper strata of the terrestrial crust. Similarities in typeof deposits of metal are found in regions where geological conditions are the same. It is not by chance For Women Who Care that certain regions are exceptionally rich in gold "leads" while in other regions no "leads" can be found.—Harper's Weekly.

PERHAPS THIS EXPLAINS IT.

"What are you shutting off the flectric heat for?" demanded the passenger in the elevated railway railway car.

"I'll tell you, mister," said the guard in a stage whisper, "if you wom't say anything about it; this is the rush hour, an' we need all the juice for runnin' the trains,"

Of course you use an antiseptic in your family and in the care of your own per-

son, and you want the best.
Instead of what you have been using such as liquid or tablet antiseptics or peroxide, won't you please try Paxtine, s concentrated antiseptic powder to be dissilved in water as needed.

Paxtine is more economical, more cleansing, more germicidal and more healing than anything you ever used.
